A Fresh Take on Classic Style

BELFIELD™ BATH SUITE PROVES THAT TRADITIONAL DESIGN IS ANYTHING BUT BORING

North Olmsted, Ohio... Remodeling the bathroom is the most common project homeowners will pursue in 2017, according to the National Association of Home Builders. One of most cost-effective items to update in the bathroom is the faucet. When shopping for fixtures, consumers are looking for unique styles, and Moen has their needs covered with the launch of the new Belfield™ bath suite.

“Belfield is the perfect finishing touch in the bathroom,” said Mike Reffner, senior manager, bath category, Moen. “This collection is influenced by our popular Belfield kitchen suite, so consumers looking to extend the design style into the bathroom can easily achieve a cohesive look throughout the home.”

Belfield features a fresh take on traditional design with beautiful details, including faucets with high-arc spouts, accented finials, as well as

ADA compliant

decorative double and single rings on the spout and handle that make the suite highly distinctive. Plus, it's offered at a competitive price point, providing an elegant, yet affordable option for homeowners whether they are building or remodeling.

A collection of matching accessories is available for a finished look. Options include a single robe hook, paper holder, towel ring, double towel bar, tank lever; 12-, 18- and 24-inch grab bars; one- to four-globe bath lights and towel bars in 18- and 24-inch lengths.

THE COLLECTION FEATURES NOTABLE MOEN® INNOVATIONS, INCLUDING:

1234® and 1255® Duralast® Cartridges

This unique ceramic-disc design provides the smooth feel and reliable operation of a new faucet from the first time you use it to the last. Single-handle lavatory faucets feature the Moen 1255® Duralast® cartridge, while two-handle faucets offer the 1234® version.

M•PACT® Common Valve System

Featured on the widespread faucets, tub/showering options and Roman tub faucet, Moen's common valve design allows for a quick faucet change without replacing plumbing. Simply unscrew the handles and spout, lift them out and replace with a new style – transforming the space in just minutes. It works just as easily when replacing shower trim.

Posi-Temp® Valve

Moen pressure-balancing valves adjust automatically to changes in water line pressure – ensuring constant and comfortable water temperatures. Despite demands elsewhere in the home, the water temperature is designed to remain within $\pm 3^{\circ}\text{F}$ of the set temperature. For added safety, Moen's temperature limit stops can be set to control maximum hot water temperature.

Duralock® Quick-Connect System

The intuitive Duralock® Quick-Connect System uses a proprietary, push-button connector that makes installing faucets quick, secure and hassle-free – no tools required. A telltale “click” audibly signals a secure connection.

Lifeshine® Finish

Lifeshine® finishes from Moen are both decorative and durable – they will not tarnish, corrode or flake off for the life of the product.

All products feature Moen's limited lifetime warranty* to ensure superior quality.
