New Gibson™ Bathroom Collection from Moen Offers a Sleek, Industrial-Inspired Design

EDGY, YET ELEGANT, BATHROOM FIXTURES PROVIDE MORE OPTIONS TO MODERNIZE BATHROOM DESIGN

North Olmsted, Ohio... Featuring clean lines and sleek styling, the new Gibson™ bathroom suite from Moen gives homeowners the opportunity to add modern elegance to any bathroom at an attractive price point.

“The Gibson bathroom collection offers consumers an easy *and* cost-effective way to achieve a desirable contemporary look,” said Julie Everson, wholesale bath product manager, Moen. “Plus, with the

Certified to meet EPA WaterSense® Criteria

ADA compliant

matching tub and shower options, homeowners can create a cohesive appearance throughout the space.”

With an edgy, industrial, high-arc spout and streamlined lever handles, Gibson instantly provides a fresh feel throughout the bath. The single-handle faucet features a longer spout – making it easier to accomplish everyday tasks. For added functionality, the centerset model’s swiveling spout assists with rinsing or cleaning the bathroom sink. In addition to single-handle, centerset and two-handle widespread faucet options, the Gibson collection includes tub/shower, shower- and valve-only options, as well as Roman Tub trim. Coordinating accessories are available within Moen’s popular Iso™ suite.

THE COLLECTION FEATURES NOTABLE MOEN® INNOVATIONS, INCLUDING:

1255® Duralast® Cartridge

Single-handle lavatory faucets feature the Moen 1255® Duralast® cartridge, a state-of-the-art ceramic-disc cartridge that provides a consistently smooth handle feel and the highest levels of quality and durability for the life of the faucet.

M•PACT® Common Valve System

Featured on the widespread faucets, tub/showering options and Roman tub faucet, Moen’s common valve design allows for a quick faucet change without replacing plumbing. Simply unscrew the handles and spout, lift them out and replace with a new style – transforming the space in just minutes. It works just as easily when replacing shower trim.

Posi-Temp® Valve

Moen pressure-balancing valves adjust automatically to changes in water line pressure – ensuring constant and comfortable water temperatures. Despite demands elsewhere in the home, the water temperature is designed to remain within $\pm 3^{\circ}\text{F}$ of the set temperature. For added safety, Moen’s temperature limit stops can be set to control maximum hot water temperature.

All products feature Moen’s limited lifetime warranty* to ensure superior quality.
